

TOP TIPS ON FINDING THE PERFECT STUDENT HOUSE

1. FINALISE YOUR GROUP

Before you start looking at houses you'll need to know how many rooms you're looking for. *You will need a room for each person, even if 2 of you may be sharing a room.* Find the friends that you want to live with and then begin your house search.

2. DECIDE ON YOUR "MUST HAVES"

Each group will have a selection of features that their prospective house must have. Do you all want double-beds? Need a space for parking a car? How many bathrooms do you need? Have a think about these questions with your group so you're on the same page when searching.

3. GET IN TOUCH

At Norwich Student Lettings we specialise in student housing and we have property managers that know each house in our portfolio. Let us know the key features that you and the group need and we can send you our suggestions that meet your requirements.

4. BROWSE ADS AND VIDEO VIEWINGS

Once we know what kind of house you and your group are looking for, we can send you over adverts and video viewings for suitable properties. You can then have a look through and discuss with the rest of your group.

5. BOOK AN IN-PERSON VIEWING

Let us know the 2-3 properties that you are most interested in and we can arrange an in-person viewing to show you round. You can also use this meeting to ask any other questions you have about the house or the lettings process.

6. SUBMIT YOUR APPLICATION

We will then send you out the details for you and your group to apply for a tenancy in your perfect student house.
