

Bedrooms, Living Rooms and Hallways

Remove all clothes and belongings from the room.

Hoover inside all drawers and wardrobes to remove all dust, hair, crumbs etc.

Wash down all furniture with detergent inside and out, including bed frames and curtain poles. Sugar soap can be used for greasy marks and stains.

Clean interior window glass with glass cleaner and frames with soapy water, taking care not to leave streaky marks.

Floors should be vacuumed thoroughly, and mopped if hard floor. Make sure you go right to the edges of the floor using the hose nozzle.

All sofas, armchairs and mattresses should be clean and fully vacuumed, including under the cushions etc.

Skirting boards should be dusted/hoovered with a brush nozzle (so not to scratch paintwork). Don't forget to pull furniture away from the wall to get behind it.

Mirrors should be cleaned with glass cleaner and left streak free.

Once cleaned, ventilate the room and use an air freshener to leave it smelling nice.
